

FOR IMMEDIATE RELEASE

An Entire Weekend All About Youth and Cattle

Dun Rite Stock and Stables - Bentley Alberta

September 25th and 26th 2010 will mark the date of the second annual Dun Rite Stock and Stables Cattle Showcase and Sale.

Doug and Katie Roxburgh love cattle and believe that cattle and kids together is an even better combination. This belief is the basis for the events planned the weekend of September 25th and 26th. "Last year was a huge success and we plan to build on that success this year with more cattle and activities" said Katie Roxburgh. Additions to this year's event include: NuHaven Cattle Co. of Pine Lake Alta as guest consignors, a \$50.00 sale credit for the first bidder to place a bid and additional activities, games and prizes all weekend.

The sale portion of the day will feature prospect show steers and MaineTainer heifers. All of the calves will be: vaccinated, halter broke, weaned and clipped prior to September 25th. As a bonus all of these calves are extremely quiet and hairy.

The popular clipping and fitting clinic will once again be offered on Saturday morning at 10:00 am. The clinic is free of charge and open to anyone that is interested in improving their clipping and fitting skills. Topics covered will include clipping techniques and supplies needed as well as their correct uses. Clipping and fitting is a skill that demonstrates the ability of the exhibitor to prepare their animal for show. The goal is to highlight the animal's strong attributes and minimize their flaws. Techniques often take years to master; Doug Roxburgh will share some of his tips that he has learned through years of practice and preparing cattle for show.

Doug and Katie both believe that it is their responsibility to give back to the programs such as 4-H that have opened so many doors for them and influenced their lives in such a positive way. "It's a great feeling to host these clinics, have the kids attend and then watch them down the road putting the skills they learned to use" said Doug Roxburgh.
